# THE PARTICIPANTS

“ It was a truly remarkable experience learning from scholars based on different cultures and demographics. It's kind of enlightening. It gives us the perspective of a one global community in the fight for climate and global issues. ”

“ I attended a climate change classroom, and it was an eye-opening experience. The engaging discussions and expert insights deepened my understanding of the urgent challenges we face. I highly recommend this program to anyone looking to make a difference in our environment. ”

# THE FEEDBACK

## Overall experience

Participants rated the overall experience as good or very good.

## The expert

Participants thought the expert was effective in delivering the class

## Usefulness

Participants found the classes very useful.

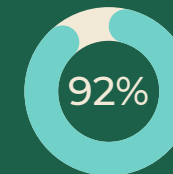

## Intent to use

Participants will use the information acquired at their work or studies.

## Job relevance

Participants found the information presented relevant to their jobs.

## Recommendation

Participants would recommend the climate classroom to a colleague.

“The Climate Classroom series is definitely worth experiencing whether you are new to a particular topic or believe you are an expert. The content is developed and presented in such a way that it appeals to all levels of knowledge and experience. You definitely will leave with new insights and critical take-aways from the interactive discussions.”

“It was amazing. The speaker was well versed about her subject and the energy that she pour in help me to stay engaged in a topic.”

“The Climate Classroom was a unique experience for me, as I had to learn with people from all over the world. Meetings such as this, could enhance meaningful conversations surrounding climate change.”
